- Available in 100' roll only
- Not always guaranteed to be in one piece
- Mesh is 17x14
- 10-year warranty

## **Warranty and UV Protection**

The end user can send us a picture of the failing product with the sizes that need to be replaced along with an address and contact information. This will all be forwarded to the manufacturer and they will handle it from there.

As for UV protection, TuffScreen® and TEXTILINE® nano 50 (previously SuperScreen™) will slow down the fading, baking out and brittle process slower than any other screen on the market.
